

§ 567.8

12 CFR Ch. V (1–12 Edition)

under this paragraph (b) and also appears as an asset on the savings association's balance sheet, the savings association must risk-weight the asset only under this paragraph (b), except in the case of loan servicing assets and similar arrangements with embedded recourse obligations or direct credit substitutes. In that case, the savings association must separately risk-weight the on-balance sheet servicing asset and the related recourse obligations and direct credit substitutes under this section, and incorporate these amounts into the risk-based capital calculation.

(8) *Obligations of subsidiaries.* If a savings association retains a recourse obligation or assumes a direct credit substitute on the obligation of a subsidiary that is not an includable subsidiary, and the recourse obligation or direct credit substitute is an equity or debt investment in that subsidiary under generally accepted accounting principles, the face amount of the recourse obligation or direct credit substitute is deducted for capital under §§ 567.5(a)(2) and 567.9(c). All other recourse obligations and direct credit substitutes retained or assumed by a savings association on the obligations of an entity in which the savings association has an equity investment are risk-weighted in accordance with this paragraph (b).

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 567.6, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.fdsys.gov.

§ 567.8 Leverage ratio.

(a) The minimum leverage capital requirement for a savings association assigned a composite rating of 1, as defined in § 516.3 of this chapter, shall consist of a ratio of core capital to adjusted total assets of 3 percent. These generally are strong associations that are not anticipating or experiencing significant growth and have well-diversified risks, including no undue interest rate risk exposure, excellent asset quality, high liquidity, and good earnings.

(b) For all savings associations not meeting the conditions set forth in

paragraph (a) of this section, the minimum leverage capital requirement shall consist of a ratio of core capital to adjusted total assets of 4 percent. Higher capital ratios may be required if warranted by the particular circumstances or risk profiles of an individual savings association. In all cases, savings associations should hold capital commensurate with the level and nature of all risks, including the volume and severity of problem loans, to which they are exposed.

[64 FR 10201, Mar. 2, 1999]

§ 567.9 Tangible capital requirement.

(a) Savings associations shall have and maintain tangible capital in an amount equal to at least 1.5% of adjusted total assets.

(b) The following elements, less the amount of any deductions pursuant to paragraph (c) of this section, comprise a savings association's tangible capital:

(1) Common stockholders' equity (including retained earnings);

(2) Noncumulative perpetual preferred stock and related earnings;

(3) Nonwithdrawable accounts and pledged deposits that would qualify as core capital under § 567.5 of this part; and

(4) Minority interests in the equity accounts of fully consolidated subsidiaries.

(c) *Deductions from tangible capital.* In calculating tangible capital, a savings association must deduct from assets, and, thus, from capital:

(1) Intangible assets (as defined in § 567.1) except for mortgage servicing assets to the extent they are includable in tangible capital under § 567.12, and credit enhancing interest-only strips and deferred tax assets not includable in tangible capital under § 567.12.

(2) Investments, both equity and debt, in subsidiaries that are not includable subsidiaries (including those subsidiaries where the savings association has a minority ownership interest), except as provided in paragraphs (c)(3) and (c)(4) of this section.

(3) If a savings association has any investments (both debt and equity) in one or more subsidiary(ies) engaged as of April 12, 1989 and continuing to be engaged in any activity that would not

fall within the scope of activities in which includable subsidiaries may engage, it must deduct such investments from assets and, thus, tangible capital in accordance with this paragraph (c)(3). The savings association must first deduct from assets and, thus, capital the amount by which any investments in such a subsidiary(ies) exceed the amount of such investments held by the savings association as of April 12, 1989. Next, the savings association must deduct from assets and, thus, tangible capital the lesser of:

(i) The savings association's investments in and extensions of credit to the subsidiary as of April 12, 1989; or

(ii) The savings association's investments in and extensions of credit to the subsidiary on the date as of which the savings association's capital is being determined.

(4) If a savings association holds a subsidiary (either directly or through a subsidiary) that is itself a domestic depository institution the Office may, in its sole discretion upon determining that the amount of tangible capital that would be required would be higher if the assets and liabilities of such subsidiary were consolidated with those of the parent savings association than the amount that would be required if the parent savings association's investment were deducted pursuant to paragraphs (c)(2) and (c)(3) of this section, consolidate the assets and liabilities of that subsidiary with those of the parent savings association in calculating the capital adequacy of the parent savings association, regardless of whether the subsidiary would otherwise be an includable subsidiary as defined in § 567.1 of this part.

§ 567.10 Consequences of failure to meet capital requirements.

(a) *Capital plans.* (1) [Reserved]

(2) The Director shall require any savings association not in compliance with capital standards to submit a capital plan that:

(i) Addresses the savings association's need for increased capital;

(ii) Describes the manner in which the savings association will increase capital so as to achieve compliance with capital standards;

(iii) Specifies types and levels of activities in which the savings association will engage;

(iv) Requires any increase in assets to be accompanied by increase in tangible capital not less in percentage amount than the leverage limit then applicable;

(v) Requires any increase in assets to be accompanied by an increase in capital not less in percentage amount than required under the risk-based capital standard then applicable; and

(vi) Is acceptable to the Director.

(3) To be acceptable to the Director under this section, a plan must, in addition to satisfying all of the requirements set forth in paragraphs (a)(2)(i) through (a)(2)(v) of this section, contain a certification that while the plan is under review by the Office, the savings association will not, without the prior written approval of the Regional Director:

(i) Grow beyond net interest credited;

(ii) Make any capital distributions; or

(iii) Act inconsistently with any other limitations on activities established by statute, regulation or by the Office in supervisory guidance for savings associations not meeting capital standards.

(4) If the plan submitted to the Director under paragraph (a)(2) of this section is not approved by the Office, the savings association shall immediately and without any further action, be subject to the following restrictions:

(i) It may not increase its assets beyond the amount held on the day it receives written notice of the Director's disapproval of the plan; and

(ii) It must comply with any other restrictions or limitations set forth in the written notice of the Director's disapproval of the plan.

(b) On or after January 1, 1991, the Director shall:

(1) Prohibit any asset growth by any savings association not in compliance with capital standards, *except* as provided in paragraph (d) of this section; and
